### DETAILED ACTION

1. The response filed by applicants dated Feb. 9, 2005 has been considered carefully.

Claims 9-14 have been canceled. Claims 1-8, 15-20 wherein W is CR2 are pending.

2. The rejection of claims 1-8, 15-20 under 35 USC 103(a) over US 6,727,246 is dropped in view of applicant's verification that the issued claims and the instant invention are commonly owned at the time the invention was made and are subject to the same obligation of assignment, i.e. a 103(c) condition.

3. The rejection of claims 1-8, 15-20 under the judicially created doctrine of obviousness type double patenting over claims 1-9, 15-19 of US 6,272,246 is maintained for reason of record.

Applicants offered no argument nor filed an acceptable terminal disclaimer to obviate the rejection. In so far as the R5 is H compounds, the instant variable position attachment claim *fully embraced* the limited 1-attachment claim of the issued patent when R5 is H. It is recommended that either R5 is H be deleted from the instant claim or an acceptable terminal disclaimer should be filed to obviate the obviousness type double patenting rejection.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
